## HUMAN RESOURCES

### The Power of Many

Business has become more and more complicated. The list of what you can and cannot do and the number of new laws affecting the employee / employer relationship are growing so fast that many companies cannot keep up.

Large companies have Human Resource departments. But, what can the small company, which already has a competitive disadvantage, do to protect itself and the owner’s investment?

It is simple. **Chamber Care Package includes an HR service.** An HR professional consultant works on your site for the few hours each week needed to take care of your work. Your work is done promptly, confidentially, right the first time, at a cost far below any other option.

**Maximize the time you spend running your business instead of dealing with the business of your employees.**

One free consultation for any Chamber member.

The Chamber “Care Package” Personal Preference Plan provides both advantages to you. You can have this area’s top medical plans – Horizon Blue Cross, AmeriHealth and Aetna – side by side in your Chamber Care Package plan. Each employee can choose the plan that best fits his/her individual needs.

With the Chamber Care Package, there is only one administrative system and one bill. You work with The Chamber Care Package, we work with the insurers.

No extra fees. The Chamber Care Package provides this as a service to you. You save money, your employees have freedom of choice, and your administrative burden disappears.

## PERSONAL PREFERENCE

### MEDICAL PLAN

### The Power of Many

*NationalHR* has been selected to administer benefit plans for Chamber members because it can combine the buying power of a large group with the individual attention so critical to helping you succeed in today’s difficult labor marketplace.

*NationalHR* has offices in Marlton and Vineland. Its representatives will take the time to investigate your needs, and then design The Chamber Care Package to best meet those needs.

Every company is different. Different needs, different goals, different budgets. And, within even the smallest company, employees also have different needs. By using *NationalHR* and our unique Personal Preference Plan, each company and each employee can have individual choice so that your health insurance does the best possible job in meeting your needs.

## PERSONALIZED BENEFIT STATEMENTS

For many businesses, Employee Benefits now represent the second largest cost, right behind payroll. Do your employees appreciate their benefits and how much they cost you? It is difficult to appreciate benefits if you do not understand them or realize how high the cost is.

Chamber Care Package includes personalized benefit statements for your company. Give your employees a clear, concise summary of all your benefits, from Social Security and Health Insurance to vacation and holidays. Each employee’s statement will show the exact cost you incur for him or her, created to show your company and its benefit plans in their best light.
